

City of Llano  
Regular Called City Council Meeting Minutes  
February 6, 2012 – 5:30 p.m.

**A. CALL TO ORDER**

Mayor Reagor called the regular City Council meeting to order at 5:30 p.m. Those in attendance were Councilwoman Puryear, Mayor Pro-Tem Hazel, Councilman Hefner, and Councilwoman Simpson, with Councilman J. R. Decker absent.

**B. PLEDGE OF ALLEGIANCE**

Led by Councilwoman Jeanne Puryear

**C. INVOCATION**

Led by Reverend Mueller

**D. PUBLIC COMMENTS** At this time, comments will be taken from the audience on non-agenda related topics.  
No public comments made

**E. PROCLAMATION – “Mayor for the Day”**

1. Mayor Mike Reagor to formally present Proclamation to Shanna Baker, as “Mayor for the Day”.

*Mayor Mike Reagor*

Shanna Baker was present and was presented a Proclamation as “Mayor for the Day” by Mayor Reagor.

At 5:33 p.m., Mayor Reagor called for a short recess in the meeting, so all could enjoy the refreshments offered by the Chamber of Commerce.

At 5:40 p.m., Mayor Reagor called the meeting back to order to continue with the regular order of business.

**F. OATH OF OFFICE**

1. Mayor Mike Reagor to ceremonially give newly appointed City Secretary, Toni Milam the Oath of Office.

*Mayor Mike Reagor*

City Secretary, Toni Milam took the ceremonial Oath of Office read and given by Mayor Mike Reagor. Councilwoman Jeanne Puryear presented a plant to City Secretary Toni Milam from Council and Staff, congratulating her on the completion of her re-certification.

**G. CONSENT AGENDA ITEMS** All consent agenda items listed are considered to be routine by the City Council and will be enacted by one motion. There will be no separate discussion of these items unless a Council member so requests, in which event the item will be removed from the Consent Agenda and considered in its normal sequence on the Agenda.

1. Approval of the Llano City Council minutes as written dated January 17, 2012.  
*Mayor Mike Reagor/Toni Milam, City Secretary*
2. Approval of Resolution 2012-02-06-1, calling for and giving notice of the May, 2012 Elections; entering into an Agreement with Llano County Elections Administrator; and conducting a joint election between the City and Llano Independent School District.  
*Mayor Mike Reagor/Toni Milam, City Secretary*
3. Approval of Resolution 2012-02-06-2, authorizing the City to award contracts for professional Project Management Services and Project Engineering Services for projects funded under the 2011/2012 (PY) Texas Community Development Block Grant Program (TxCDBG).  
*Mayor Mike Reagor/Finley deGraffenried, City Manager*
4. Approval of Resolution 2012-02-06-3 suspending the proposed effective date of the proposed rate schedules of the Mid-Tex Division of Atmos Energy Corporation, providing that the rate schedules shall remain unchanged during the period of suspension.  
*Finley deGraffenried, City Manager*
5. Acceptance of utility and sign easements from Alco, Inc. /Sell-Thru Services for 401 E. Highway 71.  
*Finley deGraffenried, City Manager*  
Mayor Pro-Tem Hazel, with a second by Councilwoman Simpson to approve the Consent Agenda items as presented. With there being no further discussion, the motion passed by a unanimous vote.

#### **H. REGULAR AGENDA ITEMS**

1. Discuss and consider the qualifications for the Community Development Director position.  
*Councilwoman Sherry Simpson*  
Councilwoman Puryear discussed the current job applications that had been received were not meeting up to the listed qualifications on the job description. Currently the job description states "required" 3 years paid Economic Development experience. City Manager, Finley deGraffenried stated that by changing "required" to "desired", there would be a number of applicants which could be considered for the position. The job was advertised through the Texas Economic Development website, as well as the Texas Municipal League website. Mayor Reagor asked if the job needed to be reposted. Finley deGraffenried advised the Mayor, he didn't believe so, that if a change was made, they would have an adequate pool of applicants to select from. Motion by Councilwoman Puryear, with a second by Mayor Pro-Tem Hazel to update the job description to read 3 years paid Economic Development experience "desired" rather than "required". With there being no further discussion, the motion passed by a unanimous vote.
2. Presentation, discussion and consideration authorizing the Mayor to request funds using resources given by the Norton Estate for the Llano City Cemetery for the completion of "Baby Land" as needed for public safety and commemorative ornamentation and awarding the bid for cemetery improvements including chain link fencing.  
*David and Jamie Hawthorne/Alderman Sherry Simpson*  
David Hawthorne gave a presentation regarding the needs of "Baby Land" in order to complete the fencing and statuary. Mr. Hawthorne advised Council he would like to see a

“Baby Land Committee” formed in order to create guidelines for the operation of the property such as headstones and faded flowers. Mr. Hawthorne advised Council he would also like to see a separate account for “Baby Land” established, making it easier to tract what funds are available. He then advised that if there were no funds available or deemed unnecessary, then he would like permission to complete Baby Land. The Mayor asked if Council would allow him to contact the Norton Estate to request funding to complete the fencing. Councilwoman Simpson made a motion, with a second by Councilmember Puryear to authorize the Mayor to request funding from the Norton Estate. At this time the motion was amended by Councilwoman Simpson and seconded by Councilwoman Puryear to award the bid for fencing to the apparent low bidder, Pecos Fencing. With there being no further discussion on the amendment, the amendment to the motion passed unanimously. With there being no further discussion on the main motion authorizing the Mayor to request funding from the Norton Estate, the original motion passed unanimously.

3. Presentation by Halff and Associates and Collier consulting regarding study of additional water resources and capacity of lakes.

*Halff & Associates and Collier Consulting/Finley deGraffenried, City Manager*  
 Andy Carter, with Halff & Associates provided a presentation regarding the study of additional water resources and the capacity of lakes. Mr. Carter stated drought occurs on average once every 14 years; duration of drought is approximately 5 months; and the longest recorded “no flow” read on the USGS Gage was 67 days in 1956. In looking at a project overview, the City’s water supply is the Llano River and is contained in two lakes and could run dry during a severe drought. The Reconnaissance review showed the demands of the City, the volume and availability in City and park Lake; and the feasibility of sustained groundwater yield. Currently Llano is permitted to impound 700 acre-feet of water; withdraw 1,700 acre-feet of water per year at a maximum rate of 8.8 acre-feet per day. Approximately 4,600 acre-feet of volume is claimed by predominately junior water rights upstream of the City. The City’s demand includes consumption during the drought is assumed as 0.6MGD (416 gpm, 0.92 cfd, 1.84 acres-it/day). During the 2011 drought the lowest daily demand (Stage 4) was 0.4 MGD, (278 gpm, 0.62 cfs, 1.22 acre-ft/day). Mr. Carter gave simulations of “available days of water” with two different scenarios with the first scenario to begin pumping from Park Lake when the Llano River Flow is 0 cfs. Scenario 2 would be to begin pumping from Park Lake when the Water Surface Elevation of City Lake is at the top of the water intake. Under scenario 1 there would be a total of 153 total days until City Lake Water Surface Elevation reaches the water intake and 196 total days until Park Lake and City Lake are completely dry. Under scenario 2 there would be 98 days until City Lake Water Surface elevation reaches the water intake and 172 total days until Park Lake and City Lake are complete dry. Dr. Collier of Collier Consulting at this time gave a well yield analysis and a geology report on a 10 mile radius of Llano; sediment brought on by rivers, streams, gravel, sand, and clay. Dr. Collier suggested supplemental supply options and gave a geology review. Precambrian Rocks are present across the majority of the study area: Valley Spring Gneiss; Packsaddle Schist; and Town Mountain Granite. Cambrian rocks are present in fault blocks in the southeastern portion of the study area: Cap Mountain Limestone and Hickory Sandstone. Quaternary Alluvium (sediment) is present in stream valleys within the study area of the Llano River and the Terrace Deposits along the banks; gravels, sands, and clays with gravel being derived from granite, and is present in a portion of the study area, but to what extent is unknown. The potential Aquifers in Llano are produced from fractured bedrock – particularly at Packsaddle Schist; production from Hickory Sandstone; and production from sands and gravel beds along the Llano River. Dr. Collier gave a hydrogeology report regarding major and minor aquifers. An aquifer is any formation that yields useable quantities of water; consists of a “rock” and a void; rock may be sand, sandstone, limestone, granite, schist or most any other material; may be water table or artesian (pressurized); and water flow is due to gravity. Voids are fractures – break in a rock; fault – fracture that has visible displacement across it; fractures and faults may have open voids or voids that have been filled in; Vugs – dissolved voids in limestone; interparticle – voids between sand and gravel grains. In a recharge, that is an act of filling aquifer voids with water; source of water may be rainfall, streams, or other aquifers; route may be very simple such as water seeping down into a sand aquifer; route can be very complex such as water entering along fractures connected to other fractures. Potential aquifers in the Llano area are production from Hickory Sandstone; production from fractured bedrock – particularly Packsaddle Schist; and production from sands and

gravel beds along the Llano River. A new dam on river (\$3.2 million) with purchasing or leasing from LCRA. Options presented Include: a supplemental well outside the City constructing a 65,000 gallon water tank using only during a drought (\$375,000); or tap the underflow by drilling a well adjacent to Llano River (\$76,000) and using as supplemental water well. However, the yield would be difficult to predict; volume unknown, may be consuming lake water; potential locations would include the golf course and Badu Park and resistivity being recommended. Mr. Carter then did an evaluation of the potential for groundwater outside the City limits which included interviewing local drilling expert Taylor Virdell; reviewing well reports in the TCEQ and TWDB databases, with Dr. Collier submitting a hydrogeology study. The results showed the best well location is the southeast of Llano. Revisions to the operational procedures: know your inflow, install a stream gage upstream of the Park Lake ("V" notch wier); transfer (pump or siphon) 1 MGD water from Park Lake once inflow drops below 5 CFS; add aerator fountain to lake to promote mixing and improve water quality during droughts; and senior water rights call. Consider revisions to the Drought Contingency Plan with proper management of stored water and limiting use, use lessons learned during the 2011 drought to consider plan revisions; 170 days of stored water (accounting for 0.6 MGD of use plus evaporation) is available. No formal action taken on this agenda item.

At this time, Mayor Reagor requested Agenda Item #7 be taken up.

4. Presentation, discussion, and consider options for effluent water with Alpha Technologies as presented by Chance Warwick.

*Chance Warwick, Alpha Technologies/Finley deGraffenried, City Manager*

Mr. Chance Warwick of Alpha Technologies gave a brief presentation regarding the sale of effluent wastewater for use in the oil and gas industry. The draft contract Mr. Warwick presented for Council provided options for the purpose of effluent water, such as selling to other customers where there isn't a demand for pure water, including oil and gas production, thermo electric power generation, agricultural production and other industrial uses. Motion by Councilwoman Simpson, with a second by Councilwoman Puryear directing Staff to conduct a workshop discussing the different uses of effluent water. With there being no further discussion, the motion passed unanimously.

5. Presentation, discussion, and consider Bureau of Reclamation grant opportunity for water reclamation – Llano River Basin, as presented by Eric Scheibe.

*Eric Scheibe/Finley deGraffenried, City Manager*

Erick Scheibe gave a presentation and a brief overview of water supply issues along the Llano River (Junction to Llano Reach) during the summer of 2011. Some of the issues stated were Llano almost ran out of water. The City of Llano owns four water rights on the Llano River according to 2006 TCEQ data. The City of Junction owns two water rights on S. Llano River. Total water rights along the Llano River equal 6,368 ac-ft/yr and range from 1904 – 1990 (does not include S. Llano or N. Llano River rights). During the summer 2011 drought, TCEQ required Junction to curtail water use, as they had the junior water right. City of Llano continued to suffer from water shortages and is currently seeking solutions, both immediate and long term. Mr. Scheibe also gave a brief overview of Llano River (from Junction to Llano. River segment and municipalities dependent upon it; geology of river segment. A brief overview of USBR Conservation Project discussion topics and objects included: can we improve our understanding of the relationship between base flow measurements at Junction and City of Llano? The majority of water rights along Llano River are privately owned and is likely used for agriculture or livestock. Could conservation strategies be implemented to reduce/conserves water similar to strategies implemented by LCRA in Lower Colorado River basin? With no single Water Right Owner managing the system, who should spearhead this? Can we construct improvements at the Llano Reservoir and/or Junction Reservoir? Junction and Llano may need to purchase a water right to make this happen. How feasible would this be and what would the cost be? Are Off Channel Storage Facilities (OCSF) an option? Feasibility of ASR in confined sections of Hickory; feasibility of ASR in confined sections of Trinity. Feasible locations for OCSF would be on granite; likely borrow material for construction of embankment – may need bentonite or some other option; and what is the feasibility and cost? The grant opportunity would be for water reclamation. Long term issues and would address the water issues with other

communities. The Grant would be a 50/50 match up to \$300,000 and could be cost shared with other cities. With there being no other discussion, Council took no formal action.

6. Discuss and consider a Resolution 2012-02-06-4 approving a 380 Economic Development Agreement, between the City of Llano and Alco, Inc. and authorizing the Mayor to execute said agreement.

*Finley deGraffenried, City Manager*

City Manager Finley deGraffenried advised Council there were some minor changes that still needed to be made, but the more significant change would be changing the opening date from June 1, 2012 to August 1, 2012. Motion by Mayor Pro-Tem Hazel, with a second by Councilwoman Puryear to approve Resolution 2012-02-06-4 approving the 380 Economic Development Agreement, between the City of Llano and ALCO, Inc, authorizing the Mayor to execute the agreement. With there being no further discussion the motion passed unanimously.

7. Discuss and consider accepting the 2011 Police Department's Racial Profiling Report and the 2011 Police Department's Activity Report.

*Finley deGraffenried, City Manager/James Schilling, Chief of Police*

Police Chief, James Schilling presented the 2011 Police Department's Racial Profiling Report along with the 2011 Police Department's Activity Report. Included changes to the department's structure; increasing the force and increasing the stability; not as much turn over; and an increase in training for the Chief and Lieutenant. Motion by Mayor Pro-Tem Hazel, with a second by Councilwoman Simpson to accept the 2011 Police Department's Racial Profiling Report and the 2011 Police Department's Activity Report. With there being no further discussion the motion passed unanimously.

8. Discuss and consider accepting the Fiscal year 2011/2012 first quarter financial variance report.

*Finley deGraffenried, City Manager*

City Manager, Finley deGraffenried reviewed the Fiscal year 2011/2012 first quarter financial variance report with the Mayor and Council. Motion by Councilwoman Puryear, with a second by Councilwoman Simpson to accept the 2011/2012 first quarter financial variance report. With there being no further discussion the motion passed unanimously.

9. Discussion with direction to City Manager regarding amendments to the Drought Contingency Plan.

*Mayor Mike Reagor/Finley deGraffenried, City Manager*

City Manager, Finley deGraffenried requested Council direction regarding amendments to the Drought Contingency Plan. Mayor Pro-Tem Hazel asked that Staff act quickly on grants that are made available to us. Mayor Reagor gave direction to Staff to conduct a workshop regarding the different uses of water. No formal action taken.

## I. COUNCIL AND STAFF REPORTS

*The City Council may discuss any of the items listed under the City Manager's Report, but no formal action will be taken.*

City Manager's Report.

*Finley deGraffenried, City Manager*

- ATMOS line replacement/upgrade
- TDA grant opportunity for water supply projects
- Award of \$10,000 from Summerly Foundation for Red Top Jail
- Update on Main Lift Station repairs
- Notice that Chattanooga Water project complete
- Report on activity of Airport Advisory Committee

***Mayor Mike Reagor/Finley deGraffenried, City Manager***

At this time, Mayor Reagor opened the public hearing at 5:34 p.m. Ms. Diane Billingsley and Ms. Dodi Caveness spoke regarding the public hearing item, and both objected to the request to close and convey this alleyway. Applicant Janele Burns spoke regarding the request, stating by closing the alleyway would give her more access. With there being no other public comments, Mayor Reagor closed the public hearing at 5:41 p.m.

2. Hold a public hearing, to receive written and/or oral comments regarding the request to consider closing and conveying Dallas Street from west line of Sheffield, west to Cap Metro Row, Block 117, of LIFC.

***Mayor Mike Reagor/Finley deGraffenried, City Manager***

At this time, Mayor Reagor opened the public hearing at 5:41 p.m. With there being no public comments, Mayor Reagor closed the public hearing at 5:42 p.m.

**H. REGULAR AGENDA ITEMS**

1. Discuss and consider action regarding the request to consider closing and conveying the alley in the Wooley Addition; Block 7, ½ of Lots 7-11. This alley is between E. Luce Street and E. Wallace and bounded by west line of Elm Street to the east and the east line of J. C. Ragsdale Abstract #614 to the west.

***Mayor Mike Reagor/Finley deGraffenried, City Manager***

City Manager, Finley deGraffenried stated that should the Council approve this closure, a survey would be requested and that the cost of the survey would be at the expense of the property owners adjacent to the property being requested to be vacated. Three of the four adjacent property owners objected to the closure. Motion by Councilwoman Puryear, with a second by Mayor Pro-Tem Hazel to deny the request to consider closing and conveying the alley between E. Luce Street and E. Wallace and bounded by west line of Elm Street to the east and the east line of J. C. Ragsdale Abstract #614 to the west. With there being no further discussion, motion was unanimously approved.

2. Discuss and consider action regarding the request to consider closing and conveying Dallas Street from west line of Sheffield, west to Cap Metro Row, Block 117, of LIFC.

***Mayor Mike Reagor/Finley deGraffenried, City Manager***

Motion by Councilman J. R. Decker, with a second by Councilwoman Puryear to approve the request to consider closing and conveying Dallas Street from west line of Sheffield, west to Cap Metro Row, Block 117, of LIFC. With there being no further discussion, motion was unanimously approved.

3. Discuss and consider action on the Master Gardeners on Depot Sculpture Garden.

***Mayor Mike Reagor/Finley deGraffenried, City Manager/Doris Messer, Master Gardeners***

Doris Messer representing the Master Gardeners spoke regarding the Depot Sculpture Garden. Features would include benches, tables, and water features. Funding was requested by Texas Parks and Wildlife, but was put on hold. Ms. Messer is requesting to move forward with the sculpture garden. Mayor Reagor suggested parking for tour buses. Motion by Mayor Pro-Tem Hazel, with a second by Councilwoman Simpson to approve the revised plans as shown without parking. With there being no further discussion, motion was unanimously approved.

4. Discuss and consider action on the Request for Proposals and Qualifications for the Llano River Golf Course.

***Finley deGraffenried, City Manager***

City Manager, Finley deGraffenried reported Request for Qualifications were sent out to 10 golf management companies, and the City received four responses. Upon the final scoring of

the Committee as part of the procurement process, Mr. deGraffenried requested Council to allow Staff to begin negotiations with the highest scored RFQ rated. If negotiations cannot be reached with the highest scored, then Staff request to move forward with negotiations with the second highest rated RFQ. Motion by Councilwoman Puryear, with a second by Mayor Pro-Tem Hazel to commence negotiations with the highest rated and ranked firm after interviews are conducted and upon the final scoring of the RFQ's. With there being no further discussion, motion was unanimously approved.

5. Discuss and consider action on Hotel/Motel requests for funding for 2011/2012 from outside organizations.

*Mayor Mike Reagor/Finley deGraffenried, City Manager*

The Committee for hotel/motel funding for 2011/2012 from outside organizations met and have recommended a 72% funding provided the funding is available at the time of the request from outside organizations. Motion by Mayor Pro-Tem Hazel, with a second by Councilman J. R. Decker to approve the requested amounts as recommended by the hotel/motel committee. With there being no further discussion, motion was unanimously approved.

6. Discussion only regarding an update from the Airport Advisory Committee on the Hanger Project.

*Mayor Mike Reagor/Finley deGraffenried, City Manager/Jeff Hopf, Chairman, Airport Advisory Committee*

Jeff Hopf, Chairman of the Airport Advisory Committee gave Council an update regarding the Hanger Project. Mr. Hopf thanked Council for their support in the Airport and spoke briefly regarding the festivities coming up at the Airport. Mr. Hopf also spoke regarding requesting assistance from Council on "live-in hanger homes" and asked for assistance from Jerry Hooper, a subject matter expert regarding this type of arrangement. This would include revenue to the City with this sort of arrangement. Mr. deGraffenried mentioned there cannot be property sold at the airport with the airport being a part of the FAA. The property the home-hangers would reside on would belong to the City. Council directed Staff to move forward with talks with Jerry Hooper and to bring a letter of engagement back to Council for their consideration.

7. Discussion only regarding an update from IT Department.

*Finley deGraffenried, City Manager/Josh Oebel, IT*

Josh Oebel from the IT Department provided an update to Council on the following:

**Updates to the website:**

- Economic Development Section - Community Facilities Project, Community Profile, Demographics, and File Repository.
  - Job Board - Bid Requests, Job Updates, Contact, and Downloadable application.
  - Business & Community Directory - Searchable directory with contact information and Google Hybrid Map view.
  - Municipal Court - Revamp including CoL Fines and Amounts, Citation Information, Court Procedures and soon to be Municipal Court Docket.
  - GIS Mapping Software
  - E-Services - CoL subscription emails on Council, Boards & Committees, Job Openings, Calendar and Water. ( 280 current email subscribers, with an average open rate of 60%)
- Complete redesign of LanTex Theater Website.
- Website Features:**
- Fully integrated calendar
  - Printable directions with Google hybrid map system.
  - Complete Movie Descriptions with previews.
  - Printable On-Line LanTex Coupons
  - Llano County Opry Information
  - Linked and Integrated with City of Llano Website.

Emergency Notification System

Initiated CAPCOG ENS system on October 27, 2011. With help from Ed Shaffer, Capcog & City of Llano Staff CAPCOG database has been set up and ready for activation. (Special Scenarios are still in progress)

- 4724 total contacts in database, using contact information from utilities and ENS forms.
- 306 returned ENS Forms (19.12 % of total mailed)
- 60 returned ENS Forms Electronically on line.
- Scenarios will accommodate flood plains, North side specific, South side specific, and eventually by street.

#### City of Llano Wi-Fi

City of Llano currently offers free public Wi-Fi inside City Hall & indoors at the LanTex Theater. The City of Llano also offers free public Wi-Fi within a 1 block radius from City Hall & LanTex Theater.

- Current Wi-Fi internet speed is 3mb download and .5mb upload.
- Currently Wi-Fi will support 100 users simultaneously (currently being increased)
- Installation of 2 new 15db Omni-Directional antennas atop City Hall & LanTex Theater.
- Completely independent from City of Llano Network and infrastructure.

#### City of Llano Document Archive Initiative

Since its inception we have scanned and digitized approximately 100, 000 documents. This is a group effort to become more digital and secure.

- Currently the finance department is scanning in documents. City Secretary and Municipal Court will follow shortly.
- Archival scanning is being continued by IT with assistance of City Secretary.
- Archival is on a triple redundancy back up, 1 - being external hard drive stored in IT office, 2 - being duplicated archival backup dvds stored by City Secretary, and 3 - being a cloud based storage area.

#### Internal Work Flow

- 139 work orders completed since initiated.  
Work orders vary in nature from internet connectivity issues, email, phone support, WIFI, GIS, and various malfunctioning hardware such as (shredders, copy machines, printers and computers.)
- Desktop start - ups & specifications
- 5 computers brought online (3 at City Hall, 2 at Police Department.)
- Network Infrastructure

Complete rewire and upgrade of data lines on west side of building. Upgraded internet service with higher reliability and efficient speed.

- Independent Desktop Backup System

Cloud based backup system to secure files and important information incase of computer lose or corruption.

- Staff Support

Supporting staff via graphical design, reports and statistics.

#### City of Llano Application

In an effort to be more open with its data and to increase City and Citizen communication the City of Llano has started developing an apple iPhone application.

- Application tentative release date is set for March 17, 2012
- Application Mock Up following with information on Tabs.
- The downloads section of the application will have Council minutes & agendas, ordinances, proclamations, Boards & Committees documents, and LEDC Documents available.
- The driving section will have a map that can give you detailed directions to llano. It uses Google's hybrid map system so you can get street images and building fronts if needed.

City hall online is portal that will be available on our website and via our phone application.

Main features of City Hall On-Line follow.

- Downloadable and Fillable forms: Code Enforcement permit applications, Employment Application, and other forms available online.
- Live Chat and Support a click away
- City Hall Help Desk: Citizens will be able to report an issue such as (pothole, water leak, street light out, brush, dog barking, and others) online through a ticket system. The help desk can be used 24 hours a day, 365 days a year. The system will send all information provided to the department that is selected. From there the ticket will be completed and messaged back to citizen upon completion.

- City Archive - Eventually will have minutes and agendas dating back to early years of Llano.
